DCIT 26 – Application Development and Emerging Technologies
Laboratory Manual

Name: Paredes, Paula M.

Course/Yr./Sec.: BSCS 3-3

Student No.: 202300779

Date: October 29, 2025

Laboratory Activity #2
View and Text Components

Laboratory Grading Rubric			
Criteria	Definition	Points	Score
Discussion	Student was able to follow directions given in activity	20	
Coding Skills	Student was able to develop a React Native application	30	
Scientific Understanding	Student demonstrated clear understanding of the concept behind React Native	30	
Class Participation	Attendance and participation in class discussion	20	
Total		100	

Objective:

At the end of this laboratory activity, the students are expected to:

1. Familiarize with the React Native environment;
2. Learn the JavaScript syntax;
3. Use View and Text components; and
4. Gain knowledge of the basics of React Native.

Instructions:

1. Go to <https://snack.expo.io> then **login** (create an account if you don't have one yet).
2. In your **App.js** file, use the **View** and **Text** components to display a simple "**Student Profile**" with the following details:
 - o Name:
 - o Age:
 - o Course/Year/Section:
 - o About me:
 - o Achievements:
 - o Skills:
3. **Explore and make your own design.**
 - o Customize your layout, font styles, background colors, and overall appearance.
 - o Be creative and make your profile unique.
4. Preview your work using Snack Expo's simulator.
5. **Take a screenshot** of your output and save it as **Surname_Lab2_Output1.png** or compress in pdf file all the outputs.
6. Upload your project to **GitHub** following these steps:
 - o Create a new branch named **Surname_lab2-branch**.
 - o Upload your Snack Expo code files to this branch.
 - o Add a tag named **Laboratory2** to mark your first version of the code. Then attached the screenshot file (**Surname_Lab2_Output1.png** or **Surname_Lab2_Output.pdf**).
 - o Include the screenshot of your output in the repository.
7. Submit your work by providing the following through a private comment in Google Classroom:
 - o The GitHub repository link (with branch and tag)
 - o The Snack Expo project link
8. Submit your **Lab Manual** (in PDF or DOCX format) with the attached screenshot of your output in Google Classroom.)

Expected Output:

A personalized React Native "Student Profile" app displayed on Snack Expo, showing all required details with your own custom design.

Output:
